

Be Careful What You Sign!

Please do not sign the CI-97 petition.
It's too extreme for Montana.

Who supports CI-97?

- **Paid signature gatherers from out of state** who don't care what happens to Montana.
- A national group that is spending millions to get it on state ballots (Americans for Limited Government).

What would CI-97 do?

- Radically change Montana's constitution.
- Hurt our public schools.
- Threaten health care for seniors & others.
- Raise your local property taxes.
- Risk jobs & economic development.

That's what happened in Colorado, the only state with a law like CI-97. That's why Coloradans voted to overturn it in 2005.

CI-97 will not limit federal government spending. It will hurt our state and communities.

You can remove your name if you already signed CI-97. Cross it off, or go to your county elections office to fill out a form.

Who is against CI-97?

Governor Brian Schweitzer
Lt. Governor John Bohlinger
AARP Montana
League of Women Voters of Montana
