

July 19, 2002

To All Holders of the ODOT Standard Sign Design Manual (SDM):

Transmitted herewith are 15 new standard sign designs, 9 revised designs, and 3 updated drawings (see the attached list for details). The related indexes have been updated, including some additional cross-referencing to related federal designs. The new indexes should be placed in the front of each related section of the manual, the new sign designs should be inserted in numerical order in each section, and the revised drawings/designs replace existing ones.

Starting with the January 2003 revision package, the Sign Design Manual will be available exclusively on the Web. It is planned that all pages currently contained within the SDM will be online by that date. Paper copies of the revisions (starting in 2003) will not automatically be distributed to all holders of the manual.

We recommend that all holders of this manual register a subscription on the ODOT Design Reference Resource Center (DRRC) page for the SDM. This can be found at WWW.dot.state.oh.us/drcc/ . The subscription service will automatically inform you of when any new revisions or updates are made to the SDM. The site also offers a link to the online version of the SDM.

Another Feedback Form has been included with this revision package. You are invited to use the enclosed form if you would like to give us your comments and suggestions.

If there are any questions, please contact Lisa McConnell, Standards Technician (phone: 614-728-9361; e-mail: lisa.mcconnell@dot.state.oh.us).

Respectfully,

David L. Holstein, P.E.
