

## Ohio Manual of Uniform Traffic Control Devices 2003 Edition

### Revision Record

This Revision Record is intended to provide details about the revisions of the OMUTCD 2003 Edition. Table I-1 in the Introduction provides a review of the history of the Ohio Manual of Uniform Traffic Control Devices (OMUTCD) (i.e., previous editions and revisions of them).

2003 August 1, 2003, effective September 1, 2003

New edition, updating the Manual to conform more closely to the revised and reformatted national Manual on Uniform Traffic Control Devices, Millennium Edition, Revision 1 (published December 28, 2001), and to incorporate additional revisions. Part 1, General Provisions, Part 2, Signs, Part 3, Markings, and Part 9, Bicycles have been revised and reformatted; Part 6, Signals and Illumination has been revised and replaced by new Part 4, Highway Traffic Signals; Part 7, Construction and Maintenance Operations has been revised and replaced by new Part 6, Temporary Traffic Control; Part 4, Islands and Part 5, Zones have been eliminated (island information is now in Part 3, Markings, and zoning information is addressed in ODOT's "Traffic Engineering Manual"); and new Part 5, Low-Volume Roads, Part 7, School Areas, Part 8, Highway-Rail Grade Crossings and Part 10 Highway-Lite Rail Transit Grade Crossings have been added. Also, Appendix A has been replaced with a new Appendix A, Appendix B has been revised and updated to Appendix B1 and Appendix B2, Appendix C has been temporarily eliminated, and provision for an Index has been added.
