

## FAMILY TREE INFORMATION FORM

Please fill-out the following form for each individual to show how each person is connected to the rest of the family. You should fill out at least one form indicating your own name as the "Primary Name." If you have more than one spouse, please fill out a separate page for each spouse. Please fill out additional forms as needed. For example, if your children are married and have children, fill out a form for each of your children indicating their spouse name and the names of their children (your grandchildren). Also, Details of a spouse's parents and grandparents can be entered on another form. As available, please provide date and location of birth, marriage, death, and burial. If you need more space to write, you can handwrite the information on a separate piece of paper using the form below as a guide. Thanks!
