

# Discover the Catholic High School Difference

High school is a time when young men and women face a number of tests and not just those in the classroom. Catholic high schools prepare students for the ethical and moral challenges they may encounter as adults, as well as the academic challenges of college. Come to an Open House and see all that Catholic high schools have to offer.

Catholic high schools boast impressive graduation rates, ACT scores consistently above state and national averages, and a high percentage of college-bound graduates who are pursued by prestigious colleges across the country. But our schools are about so much more.

In a Catholic high school, gospel values are woven into the fiber of each student's being – and that is not just important for our students, it's important for our world. Our schools educate young men and women who can effectively articulate the gospel message our culture needs to hear. Catholic high schools form the minds, hearts, souls, bodies and wills of tomorrow's leaders and that is our greatest source of pride.

To learn more about Catholic high schools in the Archdiocese of Milwaukee, please visit one of our schools during their upcoming Open Houses or call a school to arrange a personal tour.
