RefWorks

An online research management and bibliography creator service

RefWorks allows you to…

☞ **Create a personal database online** – Store an unlimited number of records accessible from any computer linked to the Internet. No downloading software or installation required.

☞ **Import references automatically from multiple databases** – Search results from a wide variety of databases can be automatically exported into RefWorks with the click of a button.

☞ **Organize & manage references –** Sort and file references quickly and easily using folders, duplicate search, and author, keyword, and periodical indexes.

☞ **Share references –** Using the Internet, easily collaborate with members of your own institution or globally with other researchers, faculty members, or students.

☞ **Format bibliographies and manuscripts in seconds** – Save hours of typing time and decrease the number of errors made when creating tedious bibliographies. Easily make changes to your paper and reformat in seconds.

Who uses RefWorks?

Researchers – RefWorks is the perfect tool for storing a personal database of research, sharing research with colleagues, and downloading bibliographies in multiple formats.

Students – RefWorks simplifies the generation of accurate, concise bibliographies, facilitating the research process and guarding against possible plagiarism issues.

Faculty – RefWorks not only provides research tools for faculty, it also allows them to provide read-only access for class-related bibliographies.

Librarians – RefWorks is a perfect teaching tool. It facilitates the incorporation of information fluency competencies into the curriculum at all levels.

"I mean we are talking about a way cool program — say goodbye to the stress of bibliographies…. The agony has ended – use RefWorks."
Melissa, Undergraduate Student
College of St. Benedict/St John's University, USA

"Today's students are highly mobile, and RefWorks supports this mobility. Once our users get hooked on RefWorks they keep coming back."
Marshall Clinton
University of Toronto

"If you juggle citations and references for any reason – writing, research – RefWorks is so much more than just "a Web based bibliographic management software." It can be your lifeline!"
Karen Schneider
Librarian and Editor
Free Range Librarian

RefWorks

RefWorks is easy as 1, 2, 3…

1. Build your database with wide-ranging compatibility

2. Manage your references

3. Generate bibliographies and footnotes

Why use an Internet-based research management service?

- **No special software required…** RefWorks is a Web-based service that can be used with any major Web browser on any platform

- **Accessible anytime, nearly anywhere…** Users can access Refworks any time of the day from any Internet-connected computer

- **Machine independence…** RefWorks is compatible with multiple platforms including Windows, Mac and Unix

- **Share information…** RefWorks makes it easy to disseminate bibliographies online, or to collaborate with geographically disparate colleagues to create a bibliography

- **Compatible with numerous online resources…** Users can import references quickly and easily from most major online database services, other bibliographic software packages, as well as the library's catalog

- **Upgraded automatically…** All upgrades are automatically made available to the user without the need to re-load software. The upgrades are provided at no extra fee

- **Usage Statistics…** RefWorks offers extensive standard and customized usage reporting
