

Tempe Recreation Reserve

The pipeline at Tempe

- Three construction areas will be built in Tempe Recreation Reserve to store pipes and equipment for the pipeline. Work will start in May 2008 and will run until mid 2009.
- The children's playground will remain open until mid 2008 when it will be relocated to The Village Green area. It will be put back in place when work is finished in mid 2009.
- The playing fields, indoor sports centre and netball courts will remain open.
- The footbridge over the Alexandra Canal will remain open.
- The public car park will remain open as usual.
- Trucks will access those areas during standard construction hours (Monday to Friday 7am to 6pm and Saturdays 8am to 1pm). A dedicated truck route will be used to reduce the impact on the community (see below).
- Tempe Recreation Reserve will be restored at the end of construction in mid 2009 to its original condition or better.
