FSBO: Homeowners, Homebuyers and Real Estate

Owning a home is likely one of the biggest investments you'll ever make. And it can be hard to know what all the specialized real estate terminology refers to-what's PMI? Escrow? How can I look up the previous property purchase price? What market results can I expect from a renovation? Lucky for you, [INSERT LIBRARY NAME] has a host of information on all aspects of real estate transactions.

How? Through WorldCat. When you use WorldCat.org online or in the library, you can see instantly what materials we have here in [INSERT TOWN/COMMUNITY NAME], and what's available through interlibrary loan.

Start here before you hit the hardware store for that new deck you're dreaming of-the library has links to Web how-to guides, financing calculators and can even help you research environmentally-friendly green building materials. Of course, you'll also find books on how to buy and sell houses by yourself or with a realtor. If you're a real estate professional, there are resources to help you grow your business. We have articles on loans, archives of public records and even have biographies of successful real estate moguls. So it doesn't have to be FSBO only-think of it as FSBOWL (FSBO with Library)!

Find it in here in this library or around the world, through WorldCat.
