

YOU WILL FIND THIS ACTIVITY MUCH EASIER BY FIRST COMPLETING THE ONLINE MEDIEVAL LEVERS ACTIVITY AT WONDERVILLE.CA!

WONDERVILLE ACTIVITY

MAKE MY LIFE EASIER!

Simple machines like a lever, inclined plane, pulley, wheel and axle, and wedge are found in the tools and machines we use daily. All of these devices help to make our work a little easier.

This is your opportunity to design a new tool that will make someone's life easier.

Identify a situation or task that would be more easily done with the right tool.

Design and name your invention that would make the job less difficult. Your design should incorporate at least two simple machines. (How many can you include?) Label all of the simple machines in your drawing below.
