

Florida Department of Transportation

CHARLIE CRIST
GOVERNOR

605 Suwannee Street
Tallahassee, FL 32399-0450

STEPHANIE C. KOPELOUSOS
SECRETARY

October 9, 2009

Secretary Raymond H. LaHood
U.S. Department of Transportation
1200 New Jersey Avenue, S.E.
Washington, D.C. 20590

Dear Secretary LaHood:

Pursuant to Title XV, Subtitle A, section 1511 of the American Recovery and Reinvestment Act of 2009 (Recovery Act), I certify the infrastructure investments, funded with amounts appropriated by the Recovery Act under the headings: "Highway Infrastructure Investment" to the Federal Highway Administration, "Transit Capital Assistance," "Fixed Guideway Infrastructure Investment," and "Capital Investment Grants" to the Federal Transit Administration, have received the full review and vetting required by law and I accept responsibility that such investments are appropriate uses of taxpayer dollars. I further certify that the specific information required by section 1511 concerning each such investment (a description of the investment, the estimated total cost, and the amount of Recovery Act funds to be used) is available to the public at <http://www.flarecovery.com> and linked to Recovery.gov, and the full list of projects is provided on the Florida Statewide Transportation Improvement Program (STIP) at <http://www.dot.state.fl.us/programdevelopmentoffice/federal/stip.shtm>. Attached is the summary of project additions and deletions since April 15, 2009, as of October 1, 2009.

I understand that Florida may not receive Recovery Act infrastructure investment funding unless this certification is made and posted. Please let me know if additional information is needed.

Sincerely,

A handwritten signature in blue ink that reads "SC Kopel" with a long horizontal flourish extending to the right.

Stephanie C. Kopelousos
Secretary

State of Florida
The American Recovery and Reinvestment Act of 2009 (ARRA)
Project Additions and Deletions Since April 15, 2009
As of October 1, 2009

LIST OF PROJECT ADDITIONS AND DELETIONS - The following list of transportation projects identifies those projects that have been added or deleted from the five lists of April 15, 2009. In summary:

- 16 projects have been deleted and a similar project has been added in the same county.
- 3 projects have been deleted
- 9 new projects have been added – 6 highway projects and 3 transit projects. As projects are awarded at less than the estimated project cost, additional projects can be added.

SELECTING PROJECTS FOR ARRA FUNDING - The Florida Department of Transportation (FDOT) continues to work with cities, counties, Metropolitan Planning Organizations (MPOs) and other transportation partners throughout the state to implement ARRA projects.

FEDERAL REQUIREMENTS FOR TRANSPORTATION STIMULUS PROJECTS - All candidate projects must meet federal requirements for federal transportation aid and have been assessed to ensure these requirements can be met within the approval timelines. The following are examples of the requirements applicable to transportation projects funded under the Act:

- All projects in a metropolitan area must be included in an approved Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). All projects located in a non-metropolitan area must be included in the STIP.
- Transit projects must be coordinated with the relevant transit operating agency, MPO or FDOT.
- Rail and airport projects should be coordinated with the relevant MPO and FDOT.
- Pursuant to the National Environmental Policy Act (NEPA), all projects must have completed the required assessments of environmental impacts.
- Right of way on projects must have been acquired pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies.
- American iron, steel and manufactured goods are to be used in projects, except in certain instances.

FACTORS FOR PRIORITIZING PROJECTS - Priority projects are those "shovel ready" projects which:

- Have been deferred by the state
- Are tied to concurrency where development is being held up
- Have the potential to generate revenues and jobs
- Are geographically balanced
- Provide congestion relief
- Are located in economically distressed areas
- Can be completed within 3 years
